

# Template for Pop-Up® Lights

MODEL # 204-M

1 N.M. (A-16)

TEST DATE: APRIL 16, 1993

#78 BULB

- Drill six 5/16" diameter holes.
- Holes 1,2,3 &4 are for turning the saw blade at cutout.
- Holes 5 &6 are for screw head clearance.
- #7 notch cutout is only required for stainless steel lights. It is okay to cut this out for plastic lights but not necessary.
